Amendment
Reply to OA dated Sept. 10, 2004

Att. Docket No. 740819-595

Claims 23, 24, and 25 are each dependent upon new claim 22, and are patentable at least by reason of such dependency.

New claim 26 likewise recites an exposure chamber and an analysis unit, and "wherein a plurality of constituents of an outgas released from said resist film when said resist film is irradiated with said electron beam or analyzed at said analysis unit." Accordingly, new claim 26 is patentable for all the reasons given with respect to new claim 22.

Finally, as claims 27, 28, and 29 are each dependent upon new claim 26, these claims are likewise patentable by reason of such dependency.

Now that all the claims are believed to be patentable, the prompt issuance of a Notice of Allowance and Issue Fee Due is hereby earnestly solicited.

The Commissioner is authorized to charge any overage or shortage of fees connected with filing of this Amendment to Deposit Account No. 19-2380 (740819-595).

Respectfully submitted,
